Western Australia Forecast

Issued at 4:45 am WST on Friday 11 July 2025
for the period until midnight WST Monday 14 July 2025.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation - Northern Western Australia

Windy conditions easing later today as a ridge to the south moves away and builds over central Australia, bringing an easterly flow to the area. A weak trough will develop over the far west Pilbara on Sunday.

Weather Situation - Southern and Central Western Australia

A high pressure system over southern WA will move into central Australia today. A cold front approaching from the west today will move across the South West Land Division on Saturday and weaken. A new ridge will extend over southwest WA on Sunday, followed by a weak cold front brushing past the south coast on Monday.

Forecast for the rest of Friday 11 July

Showers developing southwest of a line Mandurah to Walpole, spreading to south of a line Jurien Bay to Albany in the late afternoon and evening. Chance of a gusty thunderstorm near the coastal fringe of the South West district. Morning frosts over inland South West Land Division, eastern Gascoyne, Goldfields, South Interior and inland Eucla. Windy in the morning over the North Interior, inland southern Kimberley and adjacent Pilbara.

Forecast for Saturday 12 July

Showers across much of the South West Land Division, more frequent over the western districts. Showers spreading to the southern and western Gascoyne, southwest Goldfields and western Eucla in the late afternoon and evening. Patchy morning frost over the southern Gascoyne, adjacent Central Wheat Belt, northern Goldfields and South Interior.

Forecast for Sunday 13 July

Showers over the Gascoyne, Goldfields, northeastern parts of the Central Wheat Belt, Eucla, west and south coasts of the South West Land Division. Morning fog and frosts over inland South West Land Division.

Forecast for Monday 14 July

Showers over the Gascoyne, Goldfields, Eucla, southern Interior and across much of the South West Land Division. Morning fog and frosts over inland southern parts of the South West Land Division.

The next routine forecast will be issued at 4:30 pm WST Friday.
