Western Australia Forecast

Issued at 4:30 pm WST on Friday 11 July 2025
for the period until midnight WST Tuesday 15 July 2025.

Warning Information

For latest warnings go to www.bom.gov.au, subscribe to RSS feeds, call 1300 659 210* or listen for warnings on relevant TV and radio broadcasts.

Weather Situation - Northern Western Australia

A ridge over southern WA is moving east and a weak trough will form near the west Kimberley and east Pilbara coast on Sunday. A new ridge will extend over southern WA on Monday.

Weather Situation - Southern and Central Western Australia

A ridge over the southeast of the State is moving east. A cold front will cross the southwest corner on Friday night and move over the South West Land Division on Saturday. A new ridge will extend over southwest WA on Sunday, followed by a weak cold front brushing the south coast on Sunday night and Monday.

Forecast for the rest of Friday 11 July

Showers southwest of a line Perth to Walpole, extending to west of Jurien Bay to Albany by midnight. Chance of a thunderstorm near the coastal fringe of the South West district.

Forecast for Saturday 12 July

Showers across much of the South West Land Division, more frequent over western districts. Showers extending to the southwest Gascoyne, southwest Goldfields and western Eucla in the late afternoon and evening. Patchy morning frost over the southern Gascoyne, adjacent Central Wheat Belt and western Goldfields. Windy over the southeast of the State.

Forecast for Sunday 13 July

Showers over the southern and western Gascoyne, Goldfields, Eucla and South West Land Division. Morning fog and frost over inland parts of the South West Land Division.

Forecast for Monday 14 July

Showers over the eastern Gascoyne, Goldfields, Eucla, southern Interior and across much of the South West Land Division. Morning fog and frosts over inland southern parts of the South West Land Division. Windy over southern and central parts of the State.

Forecast for Tuesday 15 July

Showers over western and southern parts of the South West Land Division, and along the south coast. Morning fog and frosts over the Goldfields, Eucla and inland parts of the South West Land Division. Windy morning over the Pilbara, North Interior, western Kimberley and northern Gascoyne.

The next routine forecast will be issued at 4:45 am WST Saturday.
